like she's made of a regular kind of alloy.

L3N4 Done'em comes quite lively when you observe that, since she clearly takes pride in her design specs.

"You're very observant, Master! All Bess-13 units are built using FlexMetal, a patented creation exclusive to JoyCo. This material is softer than organic flesh and ten times more flexible, allowing me to change my form in specific ways."

You ask what kind of specific way she can shift her body about.

"My insides are filled with a liquid called MeldMilk. By increasing or decreasing the amount in certain parts of my body, my form can be inflated or deflated to tailor my appearance to my Master's tastes," L3N4 Done'em informs you.

"I can retract, grow or recolor my hair, change eye color or grow appendages in order to fulfill your sexual needs. I also have several special modes that can be activated or deactivated, such as sexual roles or the flavor of my cum."

"You can also purchase certain special modifications, clothes, and accessories for me through the JoyCo catalog. These items will be delivered to you within one to three earth days, excluding public holidays and weekends."

After her lengthy explanation of her various features, L3N4 Done'em takes a deep breath. It's probably a programmed gesture, since she doesn't actually need to breathe.

"I doubt I'm your perfect mate fresh out of the box, so feel free to change my settings at any time. I've got a lot of them, so please be patient with me." L3N4 Done'em then bows in a very subservient manner. "... I look forward to serving your needs, Master!"
